

Dear Valued Customers,

Our venue is a **protected heritage building** therefore no structural changes may be made.

Our kitchen operates from the original parcel office. While fully equipped, its size can limit capacity during busy periods, especially over weekends and in season.

Should your meal take a little longer, we *sincerely appreciate your patience and understanding.*

We hope you enjoy your time with us at this unique landmark, where history, hospitality and new memories come together.

Station Pub Management.

A Journey Through Time

Our venue is the historic former **Franschhoek Train Station** first established over 100 years ago. The station was known as "**French Hoek**" in the Cape Government Railways era.

1904: The original station building was a simple corrugated-iron structure which served as the depot. Farmers could finally send fruit and produce to market by rail instead of relying solely on ox wagons.

1911: The first post arrived in Franschhoek by rail.

1915: The present station building was designed by Sir Herbert Baker and erected in 1915. Baker was one of the most influential architects in South African history (Union Buildings in Pretoria, Rhodes Memorial and Pretoria Railway Station).

1976: Steam locomotives were replaced by diesel.

1990's: Commercial travel services ended altogether.

2009: Station building was restored & repurposed into a family restaurant "Franschhoek Station Pub & Grill".

THANK YOU FOR BEING PART OF OUR STORY.
SIT BACK, RELAX, AND ENJOY.
